

Automatic Transfers

Set it and forget it.

Don't miss a payment with RGCU automatic services.

RGCU's automatic services give you the flexibility and peace of mind to make a payment, transfer your money or make a deposit without worrying about being late. Consider some of the following options.

Direct Deposit

Is driving to a branch becoming inconvenient to deposit your paycheck. Skip the trip to the branch with Direct Deposit. Direct Deposit allows you to deposit your check from your employer into your account for free.

Auto Pay

If you don't have direct deposit, you can still have your loan payment made automatically using auto pay for that extra peace of mind.

Auto Transfer

Use Auto Transfer to help set aside money for big purchases, vacations and more. Auto Transfer moves money each month into your Regular Share Account or club accounts so that when the time comes, your money's ready for you. All you have to do is determine how much you want to automatically transfer and where you want it to go.

Payroll Deduction

Do you have an RGCU loan? Does your employer offer direct deposit? If so, then your loan payment can be made automatically from your payroll.

Electronic Payment and ACH Origination

Electronic Payment and ACH Origination are your alternative to wire transfers. Electronic payments allow you to have your account automatically debited each month for items such as utility bills, insurance premiums, mortgage payments and other bills. ACH Origination lets you transfer money to and from accounts at other financial institutions.

Automated services mean savings

- Take off 0.50% your loan interest rate for making your loan payment using full direct deposit and auto transfer from any of your RGCU accounts.
